

How to find bargains in the Emergency Essentials Catalog

After reading this instruction go to the Emergency Essentials web site: www.beprepared.com

Across the top of most pages is a series of orange tabs. One of them is “Sale”. Click on it.

You will see a drop down list which includes several categories of interest:

Sale	Group Specials
New	Brand Search
Closeout & Overstock	

Click on “Sale” or “New” to see a list of all items in the catalog which are currently on sale. It will be a long list so you will have to click on the Next button to see additional pages.

Click on “Group Specials”. About the last week of each month Emergency Essentials posts a new list of group specials. These always have significant discounts but a minimum quantity (usually 6 or 12) must be ordered to qualify for the price.

Click on “Closeout & Overstock” to see those items. Some of these will have very good discounts. If you order early in the month you will have a better chance of getting your chosen item before they run out of stock.

If in the future (between projects) you are browsing the www.beprepared.com catalog and see something you would like to purchase at the discounted price and you think others might be interested, call me (Jerry Longhurst, 303-772-6606). We may be able to organize an impromptu Group Special order.
